HEARING RESEARCH

Contents of Volume 75

No. 1

J. Syka and J. Popelář *(Czech Republic)*
Modulation of thresholds to acoustical and electrical stimulation of the intact ear in guinea pig by furosemide and noise 1

B. Scharf, J. Magnan, L. Collet, E. Ulmer and A. Chays *(France)*
On the role of the olivocochlear bundle in hearing: A case study 11

Y. Saitoh, M. Hosokawa, A. Shimada, Y. Watanabe, N. Yasuda, T. Takeda and Y. Murakami *(Japan)*
Age-related hearing impairment in senescence-accelerated mouse (SAM) 27

W.H. Slattery III and J.C. Middlebrooks *(USA)*
Monaural sound localization: Acute versus chronic unilateral impairment 38

G.D. Housley, S. Batcher, M. Kraft and A.F. Ryan *(New Zealand, USA)*
Nicotinic acetylcholine receptor subunits expressed in rat cochlea detected by the polymerase chain reaction 47

M.E. Walsh and D.B. Webster *(USA)*
Exogenous GM1 ganglioside effects on conductive and sensorineural hearing losses 54

D.H. Xie, M.M. Henson and O.W. Henson, Jr *(USA)*
AChE-staining of type II ganglion cells, processes and terminals in the cochlea of the mustached bat 61

M. Sams and R. Salmelin *(Finland)*
Evidence of sharp frequency tuning in the human auditory cortex 67

M.M. Henson, O.W. Henson, Jr., S.L. Gewalt, J.L. Wilson and G.A. Johnson *(USA)*
Imaging the cochlea by magnetic resonance microscopy 75

H.M. Sobkowicz and S.M. Slapnick *(USA)*
The efferents interconnecting auditory inner hair cells 81

S. Takeno, R.V. Harrison, D. Ibrahim, M. Wake and R.J. Mount *(Canada)*
Cochlear function after selective inner hair cell degeneration induced by carboplatin 93

M.A. Cheatham and P. Dallos *(USA)*
Stimulus biasing: A comparison between cochlear hair cell and organ of corti response patterns 103

S.F.L. Klis and G.F. Smoorenburg *(Netherlands)*
Osmotically induced pressure difference in the cochlea and its effect on cochlear potentials 114

A.M. Berglund and M.C. Brown *(USA)*
Central trajectories of type II spiral ganglion cells from various cochlear regions in mice 121

U. Pirvola, U. Arumäe, M. Moshnyakov, J. Palgi, M. Saarma and J. Ylikoski *(Finland, Estonia)*
Coordinated expression and function of neurotrophins and their receptors in the rat inner ear during target innervation 131

H. Sohmer, M. Geal-Dor and D. Weinstein *(Israel)*
Human fetal auditory threshold improvement during maternal oxygen respiration 145

W.-J.F. Ten Cate, L.M. Curtis and K.E. Rarey *(USA)*
Na,K-ATPase α and β subunit isoform distribution in the rat cochlear and vestibular tissues 151

L.A. Sutton, B.L. Lonsbury-Martin, G.K. Martin and M.L. Whitehead *(USA)*
Sensitivity of distortion-product otoacoustic emissions in humans to tonal over-exposure: Time course of recovery and effects of lowering L_2 161

P.S. Palombi, P.M. Backoff and D.M. Caspary *(USA)*
Paired tone facilitation in dorsal cochlear nucleus neurons: A short-term potentiation model testable in vivo 175

P. Froehlich, C. Ferber, J. Remond, J.M. Jaboulay, A. Morgon, R. Duclaux and L. Collet *(France)*
Lack of association between transiently evoked otoacoustic emission amplitude and experimentation linked-factors (repeated acoustic stimulation, cerebrospinal fluid pressure, supine and sitting positions, alertness level) 184

W.-J. Kong, G. Egg, B. Hussl, H. Spoendlin and A. Schrott-Fischer *(Austria, People's Republic of China)*
Localization of chat-like immunoreactivity in the vestibular endorgans of the rat 191

A.-C. Johnson and B. Canlon *(Sweden)*
Progressive hair cell loss induced by toluene exposure 201

A.J. Niemiec, Y. Raphael and D.B. Moody *(USA)*
Return of auditory function following structural regeneration after acoustic trauma: Behavioral measures from quail 209

P.S. Guth, A. Dunn, K. Kronomer and C.H. Norris *(USA)*
The cholinergic pharmacology of the frog saccule 225

R.A. Chole and S.P. Tinling *(USA)*
Bone lining cells of the mammalian cochlea 233

J. Brix, F.P. Fischer and G.A. Manley *(FRG)*
The cuticular plate of the hair cell in relation to morphological gradients of the chicken basilar papilla 244
